

305/2011/EU Construction Products Regulation	Issue Date:	28.06.2013.
	Page	1 / 1
	Reference Nr.	DT-DoP-2013/2

DECLARATION OF PERFORMANCE

Description	D-ÉG steel panel radiators LUX-N, LUX-UNI, Standard Types: 10-E, 11-BEK, 20-D, 21-EKE, 22-DK, 30-DE, 33-DKEK Heights: 300mm, 500mm, 600mm, 900mm Lengths: 400mm up to 3000mm
-------------	---

Intended Use	Steel panel radiators with natural flow of air around their heat transfer surface. In solid and gas fuel heating systems steel panel radiators are common used. Heat transfer occurs with radiation, convection and conduction.
--------------	--

Manufacturer	D-ÉG Thermoset Kft, Hungary, H-8200 Veszprém, Csillag. u. 13.
--------------	---

System of Assessment and Verification of Constancy of Performance	System 3
---	-----------------

Harmonized Standards	EN 442-1, EN 442-2, EN 442-3
----------------------	-------------------------------------

EN-442-1 Durability Test	100 Hour Humidity Test	Declaration	PASS
Tested by ÉMI			

EN 442-1 Strength Pressure Test					
Leak Test	1300 kPa	Strength Pressure Test	1690 kPa	Declared Max. Working Pressure	1000 kPa

EN 442-1 Reaction to Fire	Class A1	Declaration	PASS
Tested by Egrokor Kft			

EN 442-2 Thermal Heat Output Test	TEST RESULTS AND DATA ACCORDING TO THE EXISTING LISTS
Danish Technological Institute	

This declaration of performance is issued under the sole responsibility of D-ÉG Thermoset Kft.
